QUICK GROW

Professional Grow Light Manufacture

QUICK GROW

Quick Grow was founded on 2010, since the establishment in over ten years,

we dedicated to the research, development and manufacture of LED plants grow lights. The

own brand Quick Grow is gradually highly recognized by the market. We tried, we failed, and

we will keep on trying to create the brilliant light!

We specialize in cutting-edge LED grow lights. We also have a horticultural product line like

gallon pots, plant trays, watering system, growing tnets, and small greenhouse. Last but not

least, we provide innovative, high quality products that are built to last and supports. them with

technical expertise and outstanding customer service.

Single Light Bar

QUICK GROW single light bars equipped with full spectrum LEDs, which is similar to the sunlight at noon, an ideal for all sorts of indoor plants at all growth stages. "V-shaped" housing design provides more lights in the same space to get more PPFD, which is effectively promotes the chlorophyll synthesis and photosynthesis.
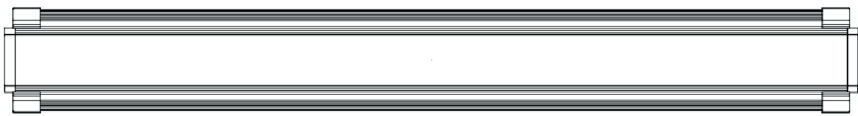

TECHNICAL DATA

Light Source	World-Class LED Chips
Input Power	12W/18W/24W/36W/48W
Input Voltage	Autosensing 120-240V
Efficacy	1.6~1.82 umol/J
Thermal Management	Passive
Working Temperature	-10℃~40℃
Dimming	No
Light Distribution	120°
Lifetime	>50,000hrs
Power Factor	≥80%
Certifications	UL,RoHs,CE
Mounting Height	≥6" Above the Plants
Warranty	2 Years

POWER CORD	PLUG	ACCESSORIES
63"/160CM	US	1xPower cord with On/Off switch
72"/183CM	EU	1xlink cord
Efficacy	UK	4xhanging clip
		2xscrew set
		2xzinc plated hanger

PPF(umol/s)	DIMENSION	NET WEIGHT
157~175	48"x21"X2"/120cm*60cm*5cm	4lb/1.8kg

GROUPED LIGHT-4PCS
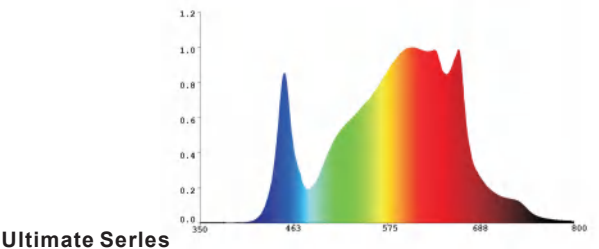

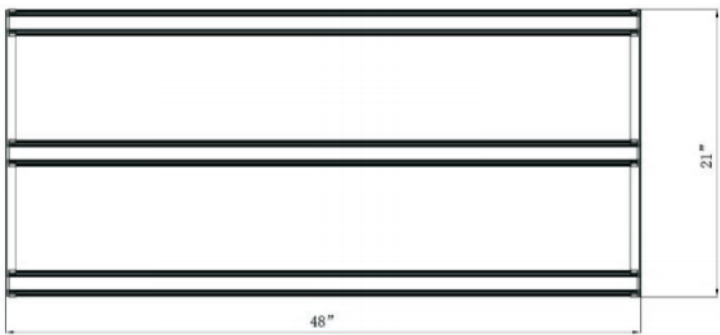

Consist of full spectrum 6400k/3000k, infinitely close to natural light, providing everything plants desired in the natural sunlight. It's suitable for all plants growing stages, rapids plant response from seed to flower to harvest, increasing yield and crop quality. Uniform and wide-beam light distribution for your plant's optimal growth.

TECHNICAL DATA
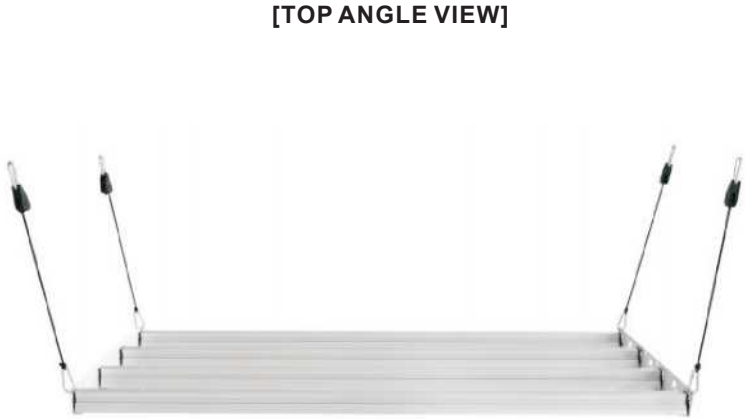

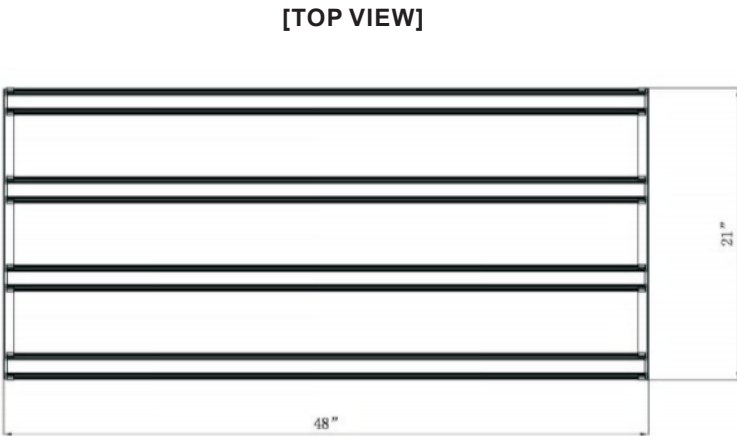

Light Source	World-Class LED Chips
Input Power	192W

QuickGrow is one of the most professional manufactures in China to research,create and produce of high-quality green energy-saving lighting products over ten year.

7pcs grow light board for medicinal plants, utilizes a full spectrum of colors for germinating seedlings and young plants consuming 336W of power. The bloom option implements more red wavelengths to simulate late summer and is most suited for plants in the flowering stage. VEG and BLOOM can be used together to encourage maximum growth performance from seedling to harvest.
